SUMMARY OF SUBSTANCE OF INTERVIEW

Sir:

Further to an interview in the above referenced application, between Examiners Rahimi and Coles and Paul Fenster, Reg. No. 33,877, on June 9, 2004, the following is a summary of the substance of the interview.

The present application is under final rejection. Applicants have filed a Response to the Final Rejection and a Traverse to the Finality of the Rejection. As yet no response has been received from the USPTO with respect to this communication.

At the interview, the undersigned went through the arguments that were filed in the response and explained why the references could not be combined and also why even if they were combined, the invention would not be obvious.

Examiner Rahimi indicated that he understood Applicants' position as to the differences between the art and the claims and that he would be reviewing the case with applicants' arguments in mind.

The Examiner is invited to call Paul Fenster to discuss this case, if necessary.

Respectfully submitted,

Gideon AMIR, et al.
